Illuminatus Alto Piano
Piero Resta, acrylic, 2015

This retrospective exhibition honors an artist whose life's work was infused with passion and spiritual transcendence within natural and mythological worlds. Piero Resta's artistic career was immersed in the alchemy of philosophy, science, poetry, and experimentation. The selection of paintings, sculpture, and personal archives on display reveals the axial relationship of his Italian heritage and influences of ancient traditions and architecture, integrated with the primitive vibrant life force of his home in Kaupo, Maui. This exhibition celebrates the legacy left by a man who embraced the world as a celestial navigator and willingly shared his grace for all to discover.
